INVESTMENT OBJECTIVE & STRATEGY

The Fund seeks long-term capital growth through an actively managed portfolio of stocks. The Fund's investment process focuses on security selection and portfolio construction. The Adviser's goal is to construct a diversified portfolio of reasonably valued stocks of higher quality companies.

Security Selection

The Adviser seeks to identify and invest in companies that exhibit higher quality business and financial characteristics. The Adviser considers higher quality companies to be those judged to have financial stability, prudent capital management, and financial statements that indicate economic success. Using both quantitative and qualitative assessments, the Adviser seeks to highlight firms for investment primarily on the basis of business stability, profitability, balance sheet sustainability, accounting practices, and growth opportunities. The goal is to identify companies that exhibit a quality profile judged by the Adviser to be desirable relative to the universe and each company's sector and country peers.

Portfolio Construction

The Fund's primary consideration is investing in higher quality companies that meet Walden's established ESG guidelines. The Fund's investments, in aggregate, possess portfolio characteristics the Adviser judges to be superior to those of international developed markets. The Fund is broadly diversified across economic sectors, countries, and currencies with weightings generally comparable to those of the international developed markets. The Fund's holdings, in aggregate, will have valuation characteristics that are, in the Adviser's judgment, comparable or better than those of an international developed market proxy.

Environmental, Social, and Governance Guidelines

The Fund incorporates ESG guidelines in connection with the selection and management of all portfolio holdings. The Fund actively promotes corporate accountability and positive change through company dialogue and shareholder resolutions, proxy voting, public policy initiatives, and educational outreach. In doing so, the Fund encourages companies to recognize that the sustainability of their profits is connected, in part, to how they treat workers, customers, communities and the natural environment as valuable, long-term assets.

Performance data for three years and longer is annualized. Performance represents Fund shares indicated at net asset value (NAV). Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and NAV will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The index returns reflect neither the deduction of fees and expenses associated with a mutual fund nor the impact of taxes.

ABOUT THE ADVISER

Boston Trust Walden Inc. (the "Adviser") is the investment adviser of the Fund and a wholly-owned subsidiary of Boston Trust Walden Company ("Boston Trust Walden"), a Massachusetts chartered bank and trust company. Boston Trust Walden is an independent, employee-owned firm providing investment management services to institutional investors and private wealth clients. Boston Trust Walden manages approximately \$10.3 billion in assets and employs a staff of 68, including 32 investment professionals averaging 15 years with the firm and 25 years in the industry.

FUND RISKS

The Fund invests in foreign securities which involve political, economic and currency risks, greater volatility and differences in accounting methods. The Fund's environmental, social, and governance (ESG) policies could cause it to perform differently compared to similar funds that do not have such a policy. This policy may result in the Fund foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, or selling securities for reasons when it might be otherwise disadvantageous for it to do so. Diversification does not assure a profit or protect against a loss in a declining market.
