Expense Ratio	1.00% ²
Minimum Initial Investment	\$100,000
Minimum Additional Investment	\$1,000
Sales Load	None
Dividends	Declared and paid annually

INVESTMENT OBJECTIVE & STRATEGY

The Fund seeks long-term capital growth and income through an actively managed portfolio of equity and fixed income securities. The Fund's investment process focuses on asset allocation, segment composition, and security selection. The Adviser seeks to construct a diversified portfolio of reasonably valued equity and fixed income securities of high quality companies and issuers that meet the Fund's environmental, social and governance ("ESG") guidelines.

Asset Allocation

Asset allocation can be the foremost determinant of total portfolio return in most market environments. Moreover, tactical shifts among asset classes can enhance returns and reduce risk over time. Using quantitative and qualitative inputs to forecast asset class returns over a range of US and global economic scenarios, the Adviser sets policy to produce a prudent risk-return portfolio.

Segment Composition

Within both the equity and fixed income segments, the Adviser makes judgments about portfolio composition intended to both enhance return and manage risk. These judgments include considerations such as sector allocation and portfolio duration.

Security Selection

Equity—The Adviser seeks to identify and invest in stocks of higher quality companies at reasonable prices. Higher quality companies are those judged to have sustainable business models, financial stability, prudent capital management, and financial statements that indicate past economic success. The Fund's equity investments are diversified across economic sectors.

Fixed Income—Fixed income holdings are generally those issued by either the US government and its agencies, or investment-grade securities of higher quality US corporations. The Adviser seeks to add value through duration management, yield curve strategies, sector rotation, and individual security selection.

Environmental, Social, and Governance Guidelines

The Fund evaluates financially material ESG factors as part of the investment decision-making process, considering a range of impacts they may have on future revenues, expenses, assets, liabilities, and overall risk. The Fund excludes companies with significant exposure in specific products or services, as well as those deemed to have substandard ESG performance as described in the Prospectus. The Fund also utilizes active ownership to encourage more sustainable business policies and practices and greater ESG transparency. Active ownership strategies include proxy voting, dialogue with company management and sponsorship of shareholder resolutions, and public policy advocacy.

FUND PERFORMANCE as of December 31, 2020

Performance data for three years and longer is annualized. Performance represents Fund shares indicated at net asset value (NAV). Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and NAV will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The index returns reflect neither the deduction of fees and expenses associated with a mutual fund nor the impact of taxes. Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and NAV will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Future performance may be lower or higher than the performance quoted. To obtain performance information current to the most recent month end, please call 1-800-282-8782.

FUND RISKS

Equity securities (stocks) are generally more volatile and carry more risk than fixed income securities (bonds) and money market investments. The net asset value per share of this Fund will fluctuate as the value of the securities in the portfolio changes. Common stocks, and funds investing in common stocks, generally provide greater returns over long time periods than fixed income securities. Compared to stocks, bonds generally offer a relatively stable level of income. However, like stocks, bonds will fluctuate, thereby incurring the likelihood of principal gain or loss. The Fund is comprised primarily of equity and fixed income securities and is subject to market risk. Stocks may decline due to general market and economic conditions or due to company specific circumstances.

ADDITIONAL DISCLOSURES

Weights are subject to change. Please visit www.bostontrustwalden.com for a complete fund portfolio holdings list. ¹ The S&P 500 is representative of the investible universe of US large capitalization companies. The MSCI World ex-US index captures large and mid cap representation across 22 of 23 Developed Markets countries (excluding the United States). The Bloomberg Barclays Capital US Government/Credit Bond Index measures the performance of US Dollar denominated US Treasuries, government-related and investment grade US corporate securities that have a remaining maturity of greater than one year. The 90-Day US Treasury Bill Index reflects monthly return equivalents of yield averages that are not marked to the market. The index is an average of the last 3-month Treasury Bill issues. The 3-month Treasury Bills are the short-term debt obligations of the US Government. The Russell 1000® Index measures the performance of the large-cap segment of the US equity universe. It is a subset of the Russell 3000® Index and includes approximately 1000 of the largest securities based on a combination of their market cap and current index membership. The Russell 1000® represents approximately 92% of the US market. ² Reflects the expense ratio as reported in the prospectus dated May 1, 2020. The Fund has no sales charge and the gross expense ratio is 1.02% and the net expense ratio is 1.00%, due to expense reimbursement. The Fund's Advisor has contractually agreed to limit fees and waive certain expenses through May 1, 2021. ³ Definitions: Sales and ROIC (Return on Invested Capital) Variability measure fluctuations in the respective metrics of the Fund or benchmark companies during a given period. Price/Earnings Ratio measures a company's current share price compared to its per-share earnings. Free Cash Flow Yield excludes the financials sector.

Please read the statutory prospectus or summary prospectus carefully before investing. An investor should consider the Fund's investment objectives, risks, and charges and expenses carefully before investing or sending money. This and other important information about the investment management company can be found in the Fund's prospectus or summary prospectus. To obtain a statutory prospectus or summary prospectus, please call 1-800-282-8782.
