INVESTMENT OBJECTIVE & STRATEGY

The Fund seeks long-term capital growth through an actively managed portfolio of stocks. The Fund's investment process focuses on security selection and portfolio construction. The Adviser seeks to construct a diversified portfolio of reasonably valued stocks of high quality companies that meet the Fund's environmental, social and governance ("ESG") guidelines.

Security Selection

The Adviser seeks to identify and invest in companies that exhibit higher quality business and financial characteristics. The Adviser considers higher quality companies to be those judged to have sustainable business models, financial stability, prudent capital management, and financial statements that indicate past economic success. Using both quantitative and qualitative assessments, the Adviser seeks to highlight firms for investment primarily on the basis of business stability, profitability, balance sheet sustainability, accounting practices, and growth opportunities. The goal is to identify companies that exhibit a quality profile judged by the Adviser to be desirable relative to the universe and each company's sector peers.

Portfolio Construction

The Fund's investments, in aggregate, will be reasonably valued and possess portfolio characteristics the Adviser judges to be superior to those of the market. The Fund is broadly diversified across economic sectors.

Environmental, Social, and Governance Guidelines

The Adviser evaluates financially material ESG factors as part of the investment decision-making process, considering a range of impacts they may have on a company's future revenues, expenses, assets, liabilities, and overall risk. The Adviser may exclude companies with significant exposure in specific products or services, as well as those deemed to have substandard ESG performance as described in the Prospectus. The Adviser also utilizes active ownership to encourage more sustainable business policies and practices and greater ESG transparency. Active ownership strategies include proxy voting, dialogue with company management and sponsorship of shareholder resolutions, and public policy advocacy.
