INVESTMENT OBJECTIVE & STRATEGY

The Fund seeks long-term capital growth through an actively managed portfolio of stocks. The Fund's investment process focuses on security selection and portfolio construction. The Adviser seeks to construct a diversified portfolio of reasonably valued stocks of high quality companies that meet the Fund's environmental, social and governance ("ESG") guidelines.

Security Selection

The Adviser seeks to identify and invest in companies that exhibit higher quality business and financial characteristics. The Adviser considers higher quality companies to be those judged to have sustainable business models, financial stability, prudent capital management, and financial statements that indicate past economic success. Using both quantitative and qualitative assessments, the Adviser seeks to highlight firms for investment primarily on the basis of business stability, profitability, balance sheet sustainability, accounting practices, and growth opportunities. The goal is to identify companies that exhibit a quality profile judged by the Adviser to be desirable relative to the universe and each company's sector peers.

Portfolio Construction

The Fund's investments, in aggregate, will be reasonably valued and possess portfolio characteristics the Adviser judges to be superior to those of the market. The Fund is broadly diversified across economic sectors.

Environmental, Social, and Governance Guidelines

The Adviser evaluates financially material ESG risks and opportunities as part of the investment decision-making process, considering a range of impacts they may have on a company's future revenues, expenses, assets, liabilities, and overall risk. In addition, the Adviser utilizes active ownership strategies to encourage sustainable business policies and practices (e.g., effective climate risk management) and greater ESG transparency (e.g., increased disclosure of salient ESG risks and opportunities). Active ownership strategies include communicating directly with company management teams or boards; filing proposals for vote at company annual general meetings; voting on ballot items in company proxy statements; and engaging public policymakers.

ABOUT THE ADVISER

Boston Trust Walden Inc. (the “Adviser”) is the investment adviser of the Fund and a wholly-owned subsidiary of Boston Trust Walden Company (“Boston Trust Walden”), a Massachusetts chartered bank and trust company. Boston Trust Walden is an independent, employee-owned firm providing investment management services to institutional investors and private wealth clients. Boston Trust Walden manages approximately \$15.8 billion in assets and employs a staff of 88, including 38 investment professionals averaging 12 years with the firm and 22 years in the industry.

FUND RISKS

Equity securities (stocks) are generally more volatile and carry more risk than fixed income securities (bonds) and money market investments. The net asset value per share of this Fund will fluctuate as the value of the securities in the portfolio changes. Common stocks, and funds investing in common stocks, generally provide greater returns over long time periods than fixed income securities. The Fund is comprised primarily of equity securities and is subject to market risk. Stocks may decline due to general market and economic conditions or due to company specific circumstances. The Adviser’s integration of ESG risks and opportunities and/or active ownership activities may cause the Fund to perform differently from a fund that uses a different methodology. ESG integration may cause the Fund to forego investment opportunities that may otherwise be advantageous. The Fund’s ESG screening criteria may influence the Fund’s exposure to certain companies, sectors, and/or industries, which may adversely affect the Fund’s performance depending on how such companies, sectors, and/or industries are performing relative to the market. In addition, the Fund may gain indirect exposure to businesses or activities inconsistent with the Fund’s ESG-related criteria in a variety of ways, including one company’s investments, joint ventures, etc.

ADDITIONAL DISCLOSURES

Weights are subject to change. Please visit www.bostontrustwalden.com for a complete fund portfolio holdings list. ¹ The S&P 500 is representative of the investible universe of US large capitalization companies. ²Reflects the expense ratio as reported in the prospectus dated May 1, 2024. The Fund has no sales charge and the gross expense ratio is 0.99% and the net expense ratio is 1.00%, due to expense reimbursement/waiver. The Fund’s Advisor has contractually agreed to limit fees and waive certain expenses through May 1, 2025. The Adviser may seek recoupment of fees waived and expenses reimbursed within three years of the date on which the expense reduction or reimbursement occurred if the Fund is able to make the repayment without exceeding the current limitation on Total Fund Operating Expenses, or the limitation in place at the time of initial waiver/reimbursement. ³Definitions: ROIC (Return on Invested Capital) Variability measure fluctuations in the respective metrics of the Fund or benchmark companies during a given period. Price/Earnings Ratio measures a company’s current share price compared to its per-share earnings.

Please read the statutory prospectus or summary prospectus carefully before investing.
